Aims and Scope

EUROPEAN JOURNAL of GENERAL MEDICINE (ISSN 1304-3897) is an English multidisciplinary peer-reviewed medical journal publishing articles in the fields of general medicine. EUROPEAN JOURNAL OF GENERAL MEDICINE is published quarterly (January, April, July and October) by the Society of Health Sciences Researchs, Turkey.

EUROPEAN JOURNAL of GENERAL MEDICINE encourages submissions from all authors throughout the world. Manuscripts are judged by two experts solely on the basis of their contribution of original data, ideas and their presentation. All manuscripts must comply with Instructions to Authors. The following articles will be considered for publication: editorials, original and review articles, brief reports, case reports, letters to the editor, and book reviews.

Submitted manuscripts must not have been published, accepted for publication or be under consideration elsewhere. Investigation on human subjects should conform to the guidelines noted in the World Health Organization Chronicle 1976; 30: 360-362.

All articles will be critically reviewed by the editor and members of the editorial or advisory board of the journal within 2 months, but longer delays are sometimes unavoidable. Full details may be found in the section of Instructions to Authors at the end of this issue.

The free-full text of the journal is available from online system. Please visit the journal website (www.ejgm.org).

Indexing and Abstracting Services: The journal is currently indexed/included in Bioline International, EBSCO, CINAHL, Scopus, EMBASE, Index Copernicus, Swets Information Services, TUBITAK ULAKBIM Turkish Medical Database, Turkey Citation Index and Chemical Abstracts Service.
INSTRUCTION TO AUTHORS

MANUSCRIPTS are received with the understanding that they are submitted solely to THE EUROPEAN JOURNAL OF GENERAL MEDICINE®, that upon submission, they become the property of the Publisher, that the work has not been previously published, and that the data in the manuscript have been reviewed by all authors, who agree with the analysis of the data and the conclusions reached in the manuscript. The Publisher reserves copyright and renewal on all published material, and such material may not be reproduced without the written permission of the Publisher. Statements in articles are the responsibility of the authors. Only papers in English will be considered for publication.

ADDRESS MANUSCRIPTS TO: Manuscripts should be submitted online at www.ejgm.org.

Please include the corresponding author's e-mail, phone and fax number. The cover letter should state the significance and uniqueness of the work in the authors' view. Several names and addresses of nonlocal experts may be suggested who, in the authors' view, could provide objective and informed reviews of their work. The names of investigators considered unlikely by the authors to give nonbiased reviews of their work also may be submitted. This request is honored.

INFORMED CONSENT AND ETHICS

When reporting studies on human subjects, notice whether the protocols were in accordance with the ethical standards of the related committee on human experimentation (regional or institutional) or with the 1975 Helsinki Declaration (including 1983 revision). Include any Ethical Committee or Animal Ethics Committee protocol numbers as warranted by experimental design.

Arrange the paper as follows: (1) title page, which should include the title, the full names and academic degrees of the authors, and the institution and city and state or city and country from which the work originated; (2) second title page, with only the title of the article (page not numbered); (3) abstract; (4) text; (5) acknowledgment; (6) references; (7) figure legends; (8) Number the title page as 1, abstract page as 2, and so forth. (Leave the second title page) Type on 22 × 28 cm (8.5 × 11 inch) paper, on 1 side only of each sheet, double-spaced (including references) with at least 25-mm (1-inch) margins.

The second title page, which omits the names and institutions of authors, gives the Editor in Chief the option of acquiring blinded or nonblinded reviews. References to the institution in the text or to the author's previous work in the Reference section must be deleted or written in a manner that prevents identification of authors and institution. Label figures with the manuscript title rather than the authors' names so that blinded reviews can be solicited. Authors should state which type of review they wish in the cover letter.

TITLE PAGE AND ABSTRACT: For the complete title page, include the full first or middle and last names of all authors. List the institution and address from which the work originated, and provide information about grant support if necessary. If work described is supported by a grant from a pharmaceutical company, that fact should be stated on the title page. Add at the bottom the phrase, “Address for reprints:” followed by full name and address with zip code. Add a 2- to 5-word running head. Limit the abstract to 200 words. List 3 to 5 key words for subject indexing at the end of the abstract or Brief Communication.

STYLE: Use appropriate subheadings throughout the body of the text, such as Methods, Results, and Discussion. Tables, figures, and references should be mentioned in numerical order throughout manuscript. Abbreviations are permitted, but no more than 3 per manuscript, and then they must be used on every page of the manuscript after they are initially spelled out (followed by the abbreviation) in both abstract and introduction. Abbreviations are usually limited to terms in the manuscript’s title. Use generic names of drugs. Do not spell out any number, including those less than 10, except when used for opening a sentence, but try not to begin sentences with numbers. Use symbols for less than (<), greater than (>), and percent (%). Indent paragraphs except the first one in both abstract and introduction. Consult the Uniform Requirements for Manuscripts Submitted to Biomedical Journals, published in N Engl J Med.
Information for Subscribers
Subscription for 4 issues (one year)
